

Write & Design (WD500)

CategoryCompany Profile
 PriceMYR 990.00

Description

OVERVIEW

A company profile is one of the most important possessions of a company. In fact, it is just like a CV that an employee would present to an employer. It states the vision and mission of a particular company, and what the company plans to achieve in the future. This is why it should be top-notch at all times. A business entity that has a professional company profile will stand a better chance of getting more business opportunities in their field of interest. This why a company should pay close attention when designing their profile.

Even though there are so many company profile design services in Malaysia, not all of them are created equal. Creativity and professionalism are essential qualities of a reputed and experienced company.

Be inspired by our professional and unlimited creativity on the content. We have the most diverse experienced writers in the industry. From retail, financial, educational, construction, oil and gas, until the cosmeceuticals.

Incepted since 2003, GE Consult has craft over 2,000 profiles, and continually aim to provide powerful company profiles to SME and startup companies in Malaysia and the rest of Asian regions.

Franchise Plan

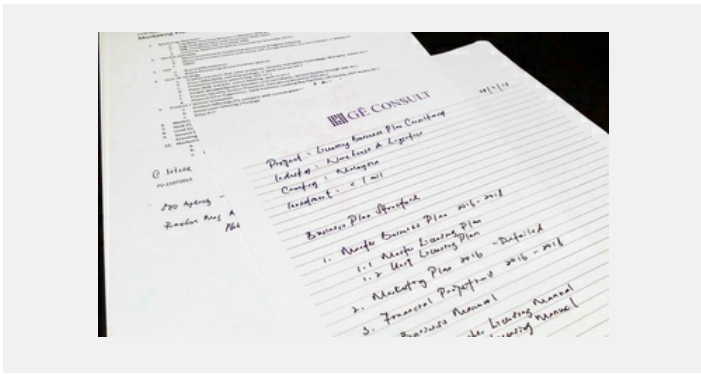

CategoryBusiness Plan
 PriceMYR 50,000.00

Description

We are a network of franchise consultants and entrepreneurs that have achieved success across several industries particularly retail and F&B. Our franchise consultancy skills have been gained in the real business world, delivering real results for new franchise businesses. From concept through planning until implementation, we will explain our franchise consultancy services and what we can help to achieve for your business goals backed by realistic numbers and action plans.

At GE Consult, our consultants will spend time to fully understand your business, objectives and goals, providing you realistic advice and later create a franchise launch plan to franchise your business.
