### Description

Nlgen Guard Tour System Model NG-10 is a intelligent proximity guard tour [system.it](#) had been used in area like residence condominium,real estate,school,hotel,hospital,storage,warehouse and etc.

## Smart Communication Server SL1000

Brand..... NEC

Handy and useful functions.....

SL 1000 is equipped with rich built-in functions that improve the employees' communication environment,contributing to saving in Total Cost of Ownership.

Hybrid concept.....

SL 1000 provides hybrid ports,realizing seamless integration of multiline terminals, single line telephones,fascimiles and more without complex settings.

Scalable Architecture.....

SL 1000 starts from 4 trunks lines and 8 extensions,scales up to 128 extensions (230 ports).The system is flexible to suit any changing demands of communication infrastructure.

Productive Communication.....

Increase efficiency by fully utilizing system features such as conference, automated attendant,call forwarding and more, for a productive office communication environment.

Web-based Manager.....

The terminal and system settings are easily customized to suit the user's preference.

Unique Features.....

Office/Home guard functions are provided.Also, the mobile extension features provide mobility.

IP-enabled.....

SL1000 is ready with the capability of VoIP (Voice over IP) trend,or for possible change in the future for both H.323 and standard SIP )Session Initiation Protocol) trunks and extensions.

Feature Rich IO Terminal.....

SL1000 provides 24-key IP terminal, having the same usage as a multiline terminal in the office IP environment. And this IP terminal can be located out of office as a Remote Extension.

Lower Power Consumption.....

SL1000 uses less power consumption than most legacy systems. Its is approximately 25% lower than previous models and reduces the total cost of ownership by minimizing the office electricity expense, at the same time saving the environment by going green.

Power Saving Mode.....

SL 1000 allows automatic standby mode during office closing hours. This feature saves the systems' energy when it is not in use and increase its overall performance.

## Comb Binding Machine DP-15/ DP-18A

Brand.....MOA

### Description

**DP-15**  
Punching up to 12 sheets 70g A4 per time.  
Binding up to 200 sheets A4 Paper with special strong steel punching handle.

**DP-18A**  
Punching up to 18 sheets 70g A4 per time.  
Binding up to 200 sheets A4 Paper with special strong steel punching handle.  
21 Blades free pin for multi punching.

## Electronic Time Recorder MOA-8600/ MOA-8800

Brand.....MOA  
Model.....Analog Time Recorder MOA-8800  
Model.....Digital Time Recorder MOA-8600

### Description

FingerTec Face ID 4, the all-new powerful facial recognition terminal from FingerTec, provides solid identity verification through its contactless biometrics technology,recognizing a face in mere seconds for accurate attendance reporting. Loaded with Face Biobridge VX 8.0, the latest of face recognition algorithm, detecting facial features during enrollment and verification is made quicker and more accurate,and with high-resolution camera and infrared feature,face detection is possible even under minimal light. Customized for function,the device comes prepared for time attendance usage. Face ID 4 is an ideal solution that is suitable for small and medium enterprise, as well as those in need of a reliable, contactless solution.

## Monochrome Laser FAX-2840

Brand.....BROTHER

Save Place.....

This compact laser fax machine doubles up as a printer and a copier.The built-in handset frees up space without the need to purchase a separate phone for your office. The compact size is packed with many features and its aesthetic design fits right into your modern office environment.

Increase Productivity.....

Reduce the hassle with 222 contacts stored and gain quick access to frequently dialled numbers. Its fast print speed up to 21 pages per minutes means you get your faxes and printouts quick. PC send and receive feature also means you preview faxes before printing thus eliminating printing of junk faxes and translates to saving paper.

Save Money.....

Send out faxes during off-peak times to avoid additional charges with the fax timer function capable of setting up to 50 timers.There is also plenty of cost cutting as you print in bulk with the optional high-yield toners,thereby reducing toner and paper expenses. With the toner save mode, you can print draft documents and save on toner.

Exceptional Quality.....

Achieve an immaculate finish with quality printouts of up to 2400 x 600 dots per inch (dpi) to win your clients and take your presentations to the next level.

Environmentally Friendly.....

Being Energy Star compliant,the fax series has lower consumption and reduces electricity bills. It consumes only

1.5 watts when not in use with the new power saving mode.  
 It keeps paper wastage low by viewing your documents before printing with the PC fax send and receive.

**Description**

Brother's new monochrome laser fax Multi-Function Centre (MFC) series can deliver outstanding results in a short time with superior technology and innovative features, performing with incredible strength and efficiency. You can rely on this compact machine for all your professional needs.

**Automatic Coin Counter Coin Star CS-550**

Brand.....Axpert

- 14 Digits Emboss Print
  - Multi Currency
  - Ink Roller (Black)
  - Heavy Duty
  - Suitable for all check
  - Calculator function

## Color Image Runner 2880i/ 3380/ 3380i

Brand.....CANON

### Description

#### Technology:

**Accelerated Paper Feeding Mechanism** enables feeding of paper to be performed at appropriate optimal speed at each location where paper feed jams are minimized,hence improving the ease of maintenance.

#### Achieve Smart Colour Printing with Real Time ACS

With Auto-Colour Select (ACS) function,the machine automatically detects and distinguishes colour and black-and-white originals in real time,requiring no pre-scan for printing.This allows you to print mixed originals without compromising on the printing speed & helps to save on colour toner.

#### IR Controller

Elevates overall multifunction capabilities by synchronizing scanner,image processor and engine operation,thus realizing higher speed and efficient operation thought concurrent processing. It also improves productivity by allowing you to return to work immediately after scanning to the memory.

#### MEAP

The Color imageRUNNER 2880i/3380/3380i series incorporate Canon's MEAP ( Multifunctional Embedded Application Platform). This is an in-built Java platform that gives you many more potential uses of your intelligent Color imageRUNNER 2880i/3380/3380i series by customizing specific applications. So you're connected with colour and the future.

## Image Runner 3245/ 3235/ 3225

Brand.....CANON

### Description

#### The Multifunction System That Does Everything You Need

In business it's great when you can really depend on someone to get the job done. That's the way to think about the image RUNNER 3245/3235/3225 systems. One powerful,ever-reliable device, it allows you to print,fax,colour scan, and send information easily and quickly, with the quality needed to make your document communication really stand out.

## MQ320 Laminating Machine

Brand.....Axpert

### Description

#### Features:

- Laminating width : 330 mm
- 4 Rollers
- Hot & Cold Laminating Function
- Operating Temperature : 80 °C -180 °C
- Max Laminating Thickness : 2mm
- Max Laminating Speed : 0.5m / min

## BC-500MG Banknote Counter

Brand.....Axpert

### Description

#### Features

- Counterfeit detecting function (UV) or (UV & MG):  
UV : Fluorescent detection
